You must include these to meet the varying needs of students!

What is Risk Watch?

Risk Watch is. . .

- an "educationally sound" unintentional injury prevention program that deals with eight areas of safety.
- a program for students in grades pre-kindergarten through eight.
- an exciting program that promotes community engagement.
- a way to significantly impact the lives of students.

Think with the end in mind…

- Put one RW day per month on the district calendar to keep focused.
- Plan for pre- and posttesting.
- Schedule a date for the culminating Safety Fair
- Decide on one meeting day per month for the Core Coalition

Synergy is the key!

A basic principle of synergy is that…

1 + 1 DOES NOT = 2

The whole is greater than the sum of its parts!

Manage The Illinois Risk Watch Coalition created a non for profit 501c3 four years ago in order to position itself grant eligible.

Smart Response System makes it easy

- The SMART Response product line offers four unique models that can meet the needs of a variety of learning environments, such as K–12, early education, special needs, advanced math and science and 1:1 learning environments.
- Each model also comes with powerful assessment software that allows you to manage and evaluate classroom results in the same program.
