

**CHILDREN'S HOSPITAL OF MICHIGAN  
SMOKE ALARM PROGRAM  
FIRE/BURN HOME SAFETY SURVEY**

*Each year, several Detroit area residents, particularly children and senior citizens, die in house fires. In many instances, those deaths could have been prevented if the home had been equipped with a properly installed and working smoke detector.*

*As part of Children's Hospital fire/burn safety education program, volunteers will install a limited number of free smoke detectors, supplied by funds from the U.S. Department of Health and Human Services, Center for Disease Control and Prevention and Kohl's Department Stores.*

*To obtain smoke detectors, fill out the home safety survey and complete the following information. The smoke detectors will be installed at a volunteer's earliest convenience. Please return this request to the fax below or back to the agency that you received it from, this will allow us to set up an installation schedule.*

Last: _____	Number of floors in home: _____ (Including basement)
First: _____	Number of working smoke detectors: _____
Address: _____	
City: _____	Children: _____ (include overnight grandchildren)
Zip: _____	Adults: _____
