

In order to prevent the spread of COVID-19 within our own Fire Stations, the following will be in effect until further notice.

Effectively immediately, personnel shall only wear specific uniform compliments when leaving the confines of the fire station or responding to medical aids/service calls. This includes one item from each of the categories listed below in relation to outerwear/field and station attire (pants/tops/footwear). Any call that requires the use of full turnouts will remain the same.

**APPROPRIATE OUTWEAR/FIELD UNIFORM:**

BOTTOMS	TOPS	FOOTWEAR
Brush Pants	Brush Jacket	Approved Boots
BDU Pants	Sweatshirt	Turnout Boots
	Jacket	
	Short Sleeve Jacket	
	Nomex Class B Shirt	

\* if worn outside of the station, in public, or on a response any of the above shall not come into the station until washed

It is the expectation that after returning to the station, any “field uniform” outerwear listed above will be stripped and left near the apparatus so as not to contaminate the inside of our fire stations. These outerwear pieces can then be reused for additional responses or cleaned as personnel see fit. Please note that if you are following proper PPE guidelines for COVID-19 patients, this outerwear should not be exposed during a COVID-19 incident. Additionally, personnel shall utilize Cavacide-1 twice a day for cleaning both our station and field footwear thoroughly along with the inside of the station as a whole.

Once outerwear is stripped personnel shall only enter the station wearing approved station attire. This approved station attire shall match our approved physical fitness uniform policy and not include any articles that were worn as outerwear while away from the fire station. ***EXAMPLE: a sweatshirt that is worn outside of the station to the grocery store shall not be brought into the fire station until washed.***

**APPROPRIATE STATION ATTIRE:**

BOTTOMS	TOPS	FOOTWEAR
Nomex pants*	T-Shirt (short or long sleeve)	Approved Boots*

Approved Physical Fitness Bottoms	Sweatshirt*	Athletic Sneaker (no sandals)
	Nomex Class B Shirt*	

\* nomex pants/class B shirt – shall only be worn in the station if they are covered while out of the station by approved outerwear/field uniform items.

\*approved boots shall only be worn in the station if they were not worn while out in the public.

**Please post the following signage on all fire station door to remind personnel of these precautions**

**IF YOU WORE IT OUT,  
KEEP IT OUT!**

Please do not bring any garments or footwear inside our stations that have been outside or on calls.
